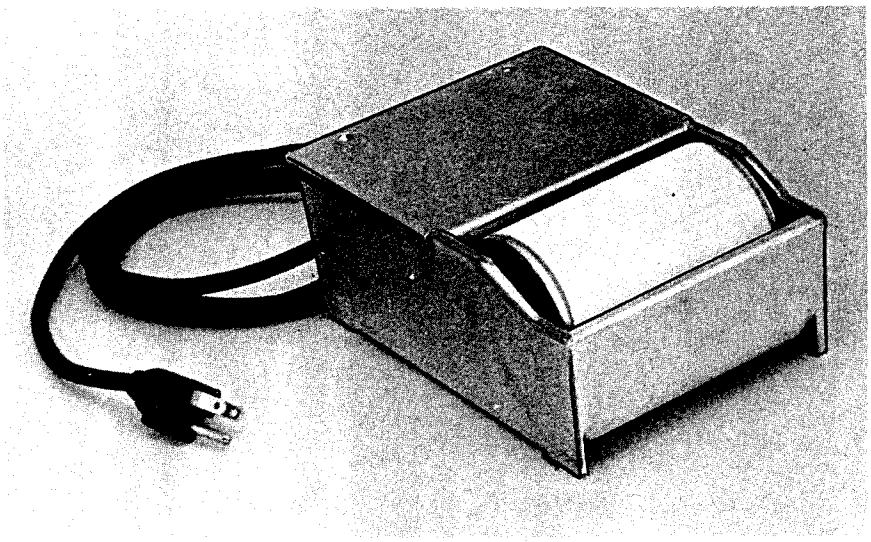
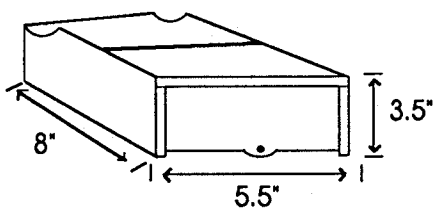
CONNOLLY

Roll-A-Grill



BUTTER SPREADER
MODEL NO.
RS-1

End Butter Brush Waste



- **Greater Capacity** - Holds over a pound of butter!
- **Sturdy** - One piece casting of aluminum.
- **Handsomer** - Greater customer appeal. Throw away that brush or greasy knife.
- **Faster** - More economical too!
- **Heated** - Just slip in the cartridge type heating element and plug in (110 volt). No thermostat needed. Gives steady low heat to keep spread melted at the right temperature.

Model No.	Dimensions L D H	Watts	Volts	Capacity	Wire Cord	Ship Wt.(lb)
