

Item No.

**Individual Thermostatically Controlled Burners Every 12 Inches Maintain Consistent Temperatures Under Heavy Load Conditions.** Precise thermostats and exclusive plate temperature sensors which respond to temperature fluctuations quickly, allow separate heat zones for different products.

**Introducing A First Of Its Kind, A Full-Depth Side Grease Drawer.** Grilling requires constant scraping between loads. Now the Anets GoldenGrill line of grills has a feature to make this task quicker and easier, saving time and money. A simple scrape to the side and the grill by-product is disposed in the drawer. Open access to the drawer along the entire cooking depth of the grill makes it quick and convenient.

#### STANDARD FEATURES

- High nickel content 3/4" precision ground hot rolled steel plate
- One burner per foot:  
30,000 BTUH per burner (24" models)  
40,000 BTUH per burner (30" models)
- Stainless steel front, sides and splashguards
- Snap action thermostats every 12 inches, (1 per burner)
- Spark ignitor for lighting pilots
- Double wall construction keeps the operator and kitchen cool

#### SIDE GREASE DRAWER FEATURES

- Full grill depth access to drawer
- Drawer is all stainless steel
- Easy to remove and clean, dishwasher safe
- Built in spatula holder
- Drawer easily slides in and out on a solid frame with guides

**SG24X48-LD shown on optional stainless steel stand with undershelf and casters**

**ANETS GoldenGRILL™**
