Integrity. It's more than just a name. It's a philosophy. It's a belief that building the world's finest teas brewers means using the best designs and the best parts. Each model features our exclusive Ready-To-Brew light and our patented water delivery system. Two foolproof ways to perfect tea, each and every time. The Bloomfield Integrity series, honestly the best.

Features

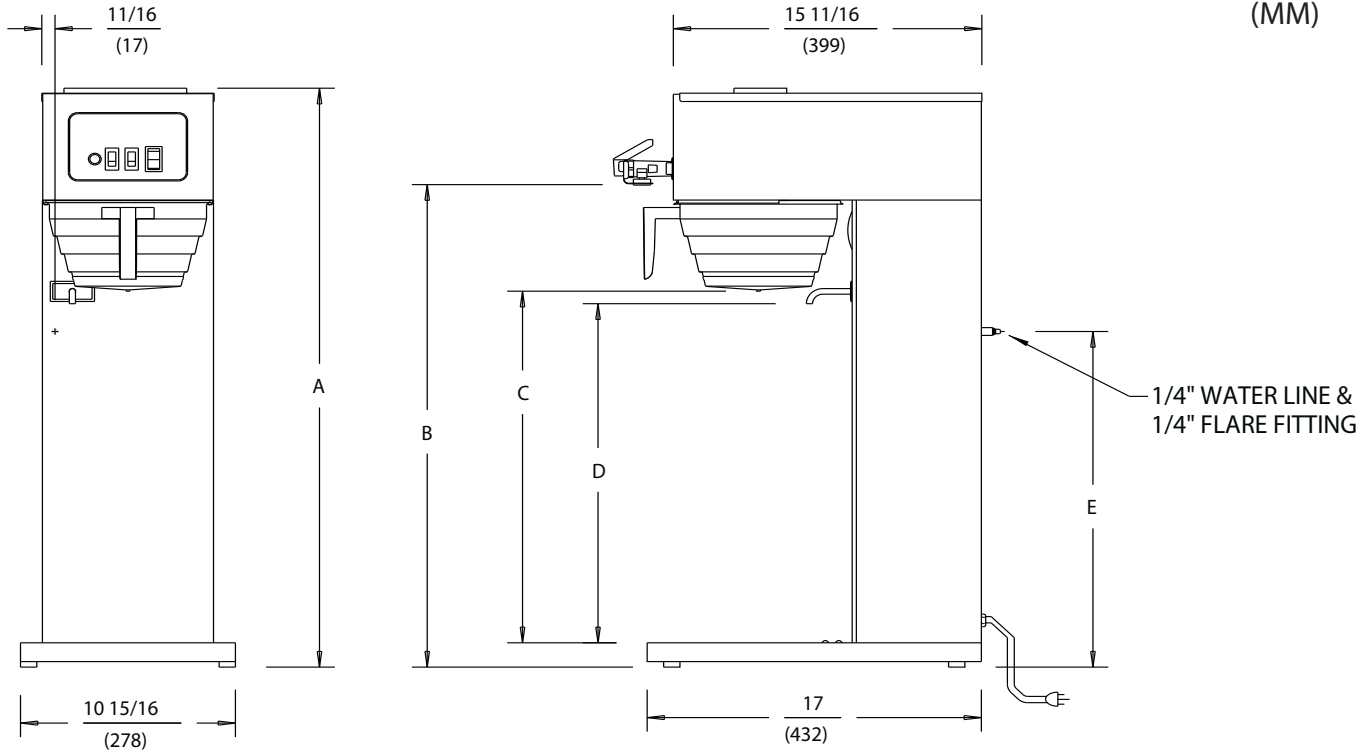

- A high level of commonality of part with other Bloomfield models will significantly reduce the inventory of spare parts required to service.
- Exclusive design provides easy access to components for quick service.
- Ready-to-Brew light indicates the proper water temperature to help eliminate the guesswork in brewing.
- Premium quality thermostat has a full-length sensing bulb that recognizes water temperature accurately and cycles less frequently.
- Superior sprayhead design spreads water over the tea leaves, creating agitation and a floating action that completely saturates the tea leaves to capture the full, rich essence.
- Unique water valve with built-in flow control and strainer assures consistent operation at 20 - 80 p.s.i.
- Rugged base assures stability and strength, and provides easy placement of tea dispenser.
- The external bypass system blends the diverted cold water immediately with the tea concentrate from the brew chamber.
- High-quality, easy-to-clean stainless steel construction.
- Easy to clean stainless steel brew chamber has precise flow orifice to provide proper steep time for optimal tea brewing.
- Wire grid in stainless steel brew chamber suspends tea above orifice to prevent clogging.
- Convenient tank heater on/off switch provides energy savings options.
- The 8742 has a 3 gallon capacity with the ability for loose leaf or pillow pack brewing.
- The 8748 has a 5 gallon capacity with the ability for loose leaf or pillow pack brewing.

Accessories

Bloomfield offers a full line of tea dispensers.
