

**8780 Gourmet 1000
Automatic Thermal
Server Coffee Brewer**

(with Hot Water Faucet)

**8786 Gourmet 1000
Automatic Thermal
Service Coffee Brewer**

(with Hot Water Faucet)

Gourmet 1000 Thermal Coffee Brewers offer volume brewing, proper extraction and holding capacity. Traditional electromechanical control and a high level of component compatibility mean many years of dependable, quality brewing. These uniquely designed units eliminate flow control problems and resist clogging in adverse water conditions. Coffee is brewed into a thermal server which is easily transportable to remote serving areas where coffee will remain preserved for optimal temperature and taste.

FEATURES

- **A high level of commonality of parts** with other bloomfield models will significantly reduce the inventory of spare parts required to service many body styles.
- Exclusive design proved **easy access to components** for quick service.
- **Water volume adjustments** can be made with ease, no panels to remove or tools required.
- **Ready-to-Brew light** indicates the proper water temperature to help eliminate the guesswork in brewing.
- Built-in **pour over feature** provides flexibility.
- **Premium quality thermostat** has a stainless steel sensing bulb that recognizes water temperature extremely accurately and cycles less frequently.
- **Superior sprayhead design** spreads water over the coffee grounds, creating agitation and a floating action that completely saturates the coffee to capture the full, rich essence of every bean.

- **Unique water valve with built-in flow control** assures consistent operation at 20-80 p.s.i.
- **One-piece drawn stainless steel water tank** has a superior design for extended life
- **Independent front-mounted hot water faucet** allows drawing of hot water without affecting coffee taste or brewing cycle.
- **Rugged base rails** provide stability and strength, while minimizing brewer height and locating placement of thermal server.
- High quality easy to clean **stainless steel construction**.

Accessories

Bloomfield offers a full line of airpot, thermal servers, and coffee grinders.

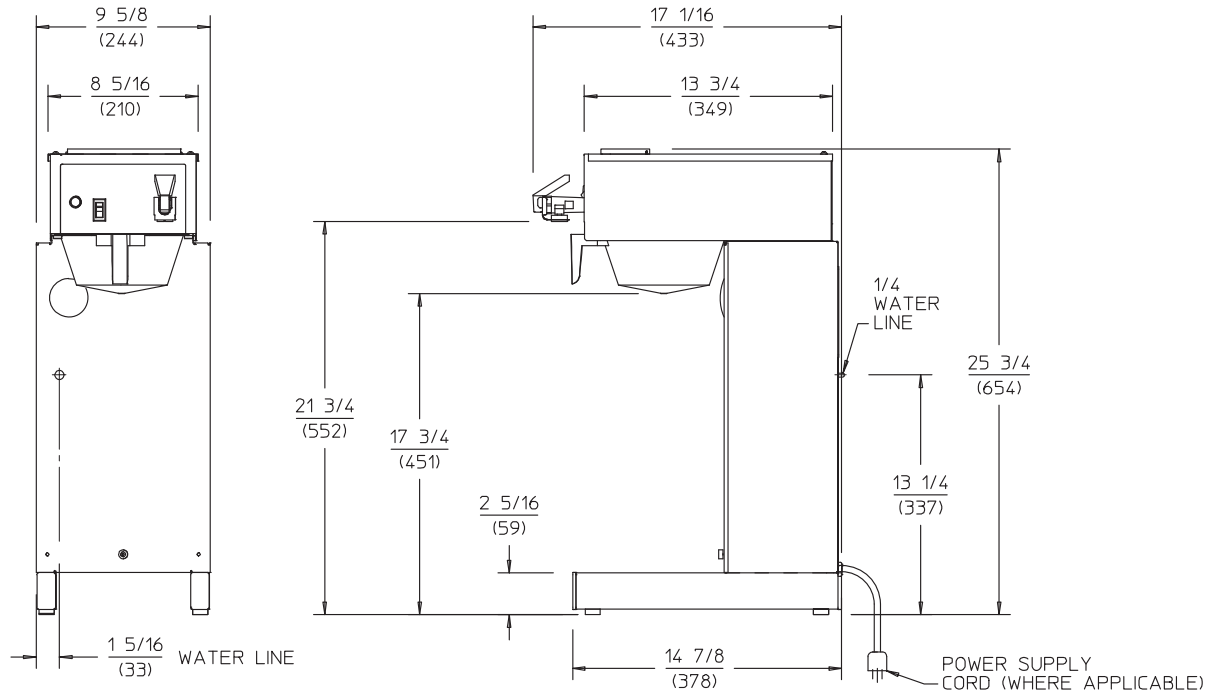

AUTOMATIC THERMAL COFFEE BREWERS

BLOOMFIELD
