## This All Purpose Anets Fryer Has Special Features That Make It A Real Work Horse

The top quality stainless steel frypot provides remarkable recovery and years of service. Unique cross-fire burners provide a 4 sided heating system for highly efficient and consistent frying results. The easy to clean open frypot has sloped sides to prevent crumb accumulation. Food particles drop rapidly into the extra large cold zone which prolongs shortening life and reduces carbon build-up. Extra wide access to this cold zone permits reaching in and wiping out even the hardest to reach corners.

### STANDARD FEATURES

Stainless steel frypot has a **10 year warranty**

Open vat design with sloped sides forces food particles to fall into the easily accessible cold zone

Unique cross fire burners provide a 4 sided heating system

Fully insulated cabinet keeps the kitchen cool

Dual (35 to 50lb.) shortening levels for varying cooking capacities

Thermostat is located behind the door to protect from damage

1 1/4" Full port ball valve prevents clogging

Stainless steel basket hanger lifts off for easy cleaning and access to the backslash
