SR-42HWP Commercial Electric Rice Cooker

Thermostat for Precision Control

The rice cooker will maintain the cooked rice warm for up to 2 hours under nominal* operating conditions, virtually eliminating burning or overcooking of the rice. As a result, rice is cooked to the Chef's preference.

Easy Push-Button Operation

The push of a button starts the rice cooking. As soon as the rice is cooked, the unit shuts itself off.

Alternate Uses

Not only does it cook rice but can braise, heat liquids and cook many different items – call or see our web page for Chefs Technical Support for recipes.

Large Capacity

SR-42HWP can cook up to 23 cups (4.4 qts) in approximately 30 minutes.

Direct Heating System

Specially sheathed heating elements heat the pan bottom directly which minimizes heat loss and in turn saves energy costs. A thermal safety fuse will protect the unit from possible temperature rise.

Easy-to-clean Removable Pan Liner

The included Aluminum Alloy pan liner lifts easily out of the cooker to make washing and rinsing a breeze. An Optional "Non-Stick" pan liner is available.

* Ambient room temperature of 70°F and pan covered.

UL and NSF Approved

SR-42HWP is built with a durability and attention to safety that has earned certification from both Underwriters Laboratories and the National Sanitation Foundation for **commercial use**.
