Anets 14" Pasta Pro

Model GPC-14

Item No.

The Anets Pasta Pro Is A Safe, Simple Way To Make Perfectly Cooked Pasta

Anets offers a safe, consistent and easy way to make traditional pasta. This self-contained system eliminates handling heavy pots and hot water. Quick, efficient heating system brings fresh water to a boil in less than 10 minutes. Super sensitive thermostat accurately controls the temperature from a soft simmer to a hard boil. Cook more than just pasta, blanch vegetables, boil seafood or reheat sauces in this all-purpose water cooker. Add features like a timer, and automatic lift. To assure product consistency. Attach a rinse station and faucet for a complete pasta station.

STANDARD FEATURES

- Cook pot is made of special marine grade stainless steel specifically for water applications
- Open vat design is easy to clean
- Unique cross fire burners provide a 4 sided heating system
- Special copper flashed heat exchangers transfer heat directly into the cookpot for maximum efficiency and instant recovery
- Super sensitive thermostat maintains water temperature within +/-1°F
- Built-in manual water-fill enables the operator to adjust water input for continuous refill (option). Manual water control eliminates the need for complicated floats and costly components
- Overflow area safeguards against accidental overfill
- Skimming area provides a place to continuously remove starch build up
- Front drain tray

GPC-14 shown with optional adjustable continuous water fill, rinse station, hot and cold faucet, split bulk baskets and casters.
