Commercial Refrigeration Equipment General Specification

3 Year Parts/Labor Warranty Additional 2 Year Compressor Warranty

CURVED FRONT GLASS DOOR MERCHANDISER

Curved front glass door merchandiser is used for merchandising and storage of cold beverages and prepackaged food products.

CABINET CONSTRUCTION

Heavy duty construction includes white coated steel interior walls. Exterior finish is heavy-duty steel with a baked on durable coating. Black exterior finish is standard.

Foamed-in-place CFC and HCFC-free polyurethane insulation enhances the structural strength of the cabinet and helps increase energy efficiency.

Modern, one-piece grille is easily removed for cleaning and servicing.

Triple pane, low E argon filled glass doors feature inside and outside panes that are tempered for added safety.

Self-closing swing doors feature an automatic hold-open feature.

Three white epoxy coated steel shelves are standard.

REFRIGERATION

Refrigeration system uses R134a refrigerant, which is CFC and HCFC-free for compliance with environmental safety concerns.

Product temperatures from 32°F to 40°F.

ELECTRICAL

Interior fluorescent lighting enhances product illumination. Optional LED lighting provides hidden light source for increased product visibility. LED bulbs last up to 10 times longer compared to fluorescent bulbs and renders additional energy savings due to reduced wattage load on compressor.

Units wired at factory and ready for connection to a 115/60/1 phase, 15 amp dedicated outlet. Approximate 8' long cord and plug set included.
