Commercial Refrigeration Equipment General Specification

3 Year Parts/Labor Warranty Additional 2 Year Compressor Warranty

MARKETMAX DUAL TEMPERATURE GLASS DOOR MERCHANDISERS

Double and Triple section, DUAL TEMPERATURE WINE glass door merchandisers with lighted sign panel used for merchandising and storage of product.

CABINET CONSTRUCTION

Heavy duty construction includes white coated steel interior walls. White or black exterior finishes are heavy-duty steel with a baked on durable coating. Stainless steel interior option available.

Foamed-in-place CFC and HCFC-free polyurethane insulation.

Modern, one-piece grille is easily removed for cleaning and servicing.

Anti-microbial door handles are standard.
Doors provide automatic hold-open feature.

Lighted sign panel.

SHELVING

Five (5) heavy duty epoxy coated wire shelves per section standard.
Four (4) shelf clips included per shelf (field installed).
Shelves are adjustable in 1/2" increments.

ELECTRONIC CONTROL

Electronic thermostat provides a digital display of cabinet temperatures, which includes status indicators and key pad for any necessary temperature adjustments when storing red and white wines.

REFRIGERATION

Self-contained bottom mount refrigeration system. Refrigerators utilize ozone friendly R134a refrigerant.

Each section can be adjusted to maintain product temperatures from 38°F to 60°F for proper storage of both red and white wines.

For MMRR72, 2 of the same wine storage applications must operate side-by-side. See page 2 for possible configurations.

ELECTRICAL

Interior fluorescent lighting enhances product illumination.
Optional LED lighting provides hidden light source for increased product visibility. LED bulbs last up to 10 times longer compared to fluorescent bulbs and renders additional energy savings due to reduced wattage load on compressor.

Refrigerator section(s) wired at factory and ready for connection to a 115/60/1 phase, 15 amp dedicated outlet. 8' long cord and plug set included.

115/60/1
NEMA-5-15P

ELECTRICAL CONNECTION

Units pre-wired at factory and include 8' long cord and plug set.
