Dual Automatic Satellite Coffee Brewer

Model: 9221

Model 9221
(Includes two Satellite Dispensers)

APPLICATION

With an eye for detail and a mind toward simplicity, we have designed a new satellite system that is an ultra-reliable mechanically controlled brewer. Volume brewing has never been easier nor has a satellite brewer of this quality ever been available at such a value price. Our electro-mechanical satellite brewer may be the old tradition in brewing, but its superior engineering and proven technology is timeless.

FEATURES

- Proven electro-mechanical controls provide simplicity of brewing and exceptional quality coffee.
- The two brewing volumes of 1 gallon and 1 1/2 gallon will accommodate fluctuations in demand.
- The externally heated satellites have a flush mounted sight gauge and a new compact size.
- Exclusive design provides easy access to components for quick efficient service.
- Ready-To-Brew light indicates the proper water temperature to help eliminate the guesswork in brewing.

- Premium quality thermostat has a full-length stainless steel sensing bulb that recognizes water temperature accurately and cycles less frequently.
- Independent front-mounted hot water faucet allows drawing of hot water without affecting coffee taste or brewing cycle.
- Unique water valve with built-in flow control assures consistent operation at 20-80 p.s.i.
- Superior spray head design spreads water over the coffee grounds, creating agitation and a floating action that completely saturates the coffee to capture the full, rich essence of every bean.
- Liquid level sensor and brew valve perform consistently with low or fluctuating water pressures.
- High quality easy to clean stainless steel construction.

OPTIONS/ACCESSORIES

- ☐ Drip tray - Model 3901
- ☐ Satellite Dispenser - Model 9440
- ☐ Single warmer - Model 9441
- ☐ Double warmer - Model 9442

PRODUCT WARRANTY

Limited two year parts & one year labor

MODEL 9441 Warmer
(Satellite dispenser sold separately)

MODEL 9442 Warmer shown
with optional Drip Tray
(Satellite dispensers sold separately)

Made in the U.S.A.
