## Universal Magnetic Chafing Dish Heater, Square, Large Chafers

Model: 1BBUFBURN1

Universal Magnetic Chafing Dish Heater, Square, Large Chafers  
Magnetic Heater For Full Size Chafing Dish  
Patented electric heater attaches magnetically to the bottom of the water pan on virtually any full size chafing dish. Adjustable electric heat controller maintains a steady, consistent heat unaffected by wind, room temperature etc.

- Made from heavy gauge polished stainless steel
- Less hazardous to use (no open flames)
- Only one unit per chafing dish is needed
- Limited 1 year warranty against factory defects or workmanship

A Magnetic Chafing Dish Heater replaces an estimated 5,000 cans of chafer fuel. Over the average life of a Magnetic Chafing Dish Heater, you can save over \$6,000 in canned fuel costs. One Magnetic Heater only cost \$0.05 per hour to operate. At an average cost of \$1.25 per can of fuel that burns for 2 hours, 2 cans per chafer, you can eliminate thousands of dollars in fuel costs each year.

Heat your chafing dishes faster and more reliably than canned fuel. Heats water to 140 to 160 degrees in 15 minutes. Set high, the heater can boil water (220 deg).

Also accommodates steam tables, warming boxes, hot dog carts, and more.

- 115-120 volts, 50/60 Hz, 4.7 Amps, 560 watts.
- 5 foot cord
- 3 prong grounded plug
- Available in 220Volt.
- TUV Listed NRTL in Canada and US.

Product Dimensions: 8.5 in x8.5 in x2 in  
Weight: 7 lbs.
