ClearBlock Combination Ice Block Lift Extractor

Model: 1BCBML60

ClearBlock Combination Ice Block Lift Extractor

ClearBlock Ice Mover, Extract, Lift, Lower, Rotate and Move Large Ice Blocks

Removes ice from the ClearBLOCK machine without use of dangerous lift equipment. Remove and transport up to a 400 lb. block of clear ice to your banquet ice display or ice carving station.

- Belt slips around ice block; hand crank removes block from ice machine
- Ice block mover can rotate to fit through doorway or freezer
- Block can be raised to a height of 36 inches in horizontal or vertical position
- 4 swivel wheels

1
Extract

2
Revolve

3
Lift & Lower

See the ClearBLOCK™ Ice Lift & Mover video and see how easily you can extract and move a 300+ pound block of ice.

Measures: 33x58x41 in.

Ships: Pallet, FOB
