

## Description

This **HHA2211-N** Aeroponics system is a double tray with eleven (11) 2 inch net pots that is great for herbs, spices, lettuce, Sea of Green, and all applications where natural light or existing light is used. All products are flexible as it allows you to change the insert for any size plant and change the lighting to suit all of your growing needs.

Designed for small to medium sized plants like lettuce, spices and herbs.

Custom hanging frames available. Every system can easily be configured.

Patent Pending
