# NOTIF EYE™
POWERED BY TEMPTRAK

## 900 MHz Sensors

## OVERVIEW

Accurate data logging and reporting is necessary to ensure compliance. NotfifEye™ offers 24/7 remote temperature, humidity and contact (door open/close) monitoring. It is an exception-based system; only when preset limits are exceeded are alert notifications triggered.
All 900 MHz sensors communicate with the ethernet gateway and/or the USB gateway.

| FEATURES | BENEFITS |
|---|---|
| • Cloud-based monitoring<br>• Out-of-the-box setup<br>• Device Range: 250-300 ft non-line-of-sight<br> *(Actual range may vary depending on environment)*<br>• Battery Life: 2-3 years at 2-hour heartbeat setting<br> *(Battery life is determined by frequency of heartbeat)* | • Data can be accessed via the internet<br>• Self-installable, no technicians or installation fees<br>• Ideal for small businesses, close quarters, etc.<br><br>• Long battery life, minimal maintenance required |
| **Specifications:**<br>• Ambient Operating Range: -7° to 60°F (20° to 140°C)<br>• Dimensions: (L x W x H) 1.75" x 1.0" x 0.75"<br> (44 mm x 25 mm x 19 mm)<br>• Probe Lead Length: 3 ft. (0.91 m)*<br>• Communication: 900 MHz<br>• Antenna: 4" (101 mm) wire antenna<br>• Power: Replaceable 3.0 V coin cell battery (CR2032)<br>• 1-year warranty | **15100 Temperature Sensor**<br>• Probe Temperature Range: -40° to 257°F (-40° to 125°C)<br>• Accuracy: ±1.8°F (±1°C)<br><br>**15120 Humidity Sensor**<br>• Relative Humidity Range: 0-100% RH<br>• Accuracy: ±2% under normal conditions (50-90% RH)<br><br>**15130 Contact Sensor**<br>• Magnet operation gap up to 0.75"<br>• SPST, gold under-plating contact with Deactivated Rhodium outer-plating |

\* Temperature sensors available with longer probe leads:
**15100-10** - 10 ft. (3.05 m)
**15100-30** - 30 ft. (9.14 m)

## ACTUAL SIZE

1.0"
(25 mm)

1.75"
(44 mm)

**15100 Temperature Sensor**

**15120 Humidity Sensor**

**15130 Contact Sensor**
