

2560 Digital Refrigerator / Freezer Thermometer

The 2560 is a low temperature digital thermometer designed to hang or stand within the food zone inside cold storage cabinets. This is one of the most accurate refrigerator / freezer instruments with a specification of $\pm 1^{\circ}\text{F}$ ($\pm 0.5^{\circ}\text{C}$), and is guaranteed accurate for life. The 2560 is $^{\circ}\text{F}$ / $^{\circ}\text{C}$ selectable with a minimum and maximum temperature feature. The unique ABS plastic frame design is removable for easy cleaning. Both the thermometer and the frame are water-resistant and incorporate an anti-microbial additive that prevents the growth of bacteria.
