

DTT361 - Cooking Thermo-Timer

The DTT361 Cooking Thermo-Timer with alarm and clock monitors cooking time and the internal temperature of your food while in the oven. By inserting the DTT361 into the food, when the food is placed into the oven to cook the door closes tightly over the probe cord allowing the food temperature to be read on the LCD that is positioned safely outside the oven. By displaying three readouts, the user can view the timer or timer countdown, as well as the actual temperature and preset temperature. Once the desired temperature and / or time setting is reached, the alarm will sound.

Specially Designed
Silicone-Jacketed
Thermistor Cable
- Won't Fray or
Allow Moisture to
Penetrate Inside.

Specifications

- Temperature Range: 32° to 392°F / 0° to 200°C
- Accuracy:
 - ±4°F (±2°C) from 32° to 104°F (0 to 40°C)
 - ±6°F (±3°C) from 105° to 158°F (41 to 70°C)
 - ±9°F (±4°C) from 159° to 266°F (71 to 130°C)
- Resolution: 1°F / °C
- Heat-resistant, silicone-jacketed cable
- Wall-mount bracket with magnet
- Timer memory / recall button
- Large easy to read LCD 1.9" x 1.4" (48.2 x 35.5 mm)
- Max temperature alarm setting
- One (1) 1.5 v AAA battery included
- Replacement Probe 9335A is available
- CE certified, WEEE marked, RoHS compliant
- 1 year warranty

Packaging

- Individual Package Weight: 6 oz. (170 grams)
- Package Dimensions: 6.5" x 1.5" x 8.75" (165 x 38 x 222 mm)
- Package Cube: 0.05
- Units per Package (1) / Units per master carton (72)
