## Specifications

Our grill bodies, legs, cooking grates, burners, under shelves, radiants, water pans, fasteners, pilot tubes, are all 304 series stainless steel for durability and ease of cleaning. Compared to units made of metal or 430 stainless steel – our units will never rust.

15,000 BTUH stainless steel burners are placed every 5.75" to ensure the most even heat pattern possible. These units heat up to cooking temperature within 6 minutes and will reach 800 degrees in 10 minutes. Our stainless steel burners and stainless steel cooking grids are warranted for 10 years!

Each RCB model includes built-in tank holders that accommodate standard 20 lb. propane tanks. Each model is also available with a single gas connection and optional 25' quick disconnect hose for use with remote tanks. Each RCB model is available as either LP or Natural Gas.

RCB models include protective crash bars on each end of the unit and upper and lower crash bars on the front of the unit.

### **Specification:**

Gas grill - must be constructed of 304 Stainless steel – including cooking grids, burners, and all fasteners. Burners to be 304 stainless steel and a minimum 15,000 BTUH per burner. Must have two 14" wheels and two total lock casters. Must ship fully assembled. Minimum of 10 year warranty on cooking grids and burners and minimum of 1 year warranty on complete unit. (RCB) Unit to include tank holder(s) to accommodate 20 lb propane tank(s). Must have storage shelf under unit. Unit to include stainless steel water pan(s) with drain port(s). CGA/AGA/NSF certified.
