Specifications

Basic Frying At Its Best -- Designed For All-Purpose Usage

Fry a wide variety of products with Dean's Super Runner fryers which easily accommodate items from French fries to main entree menu selections. The fryers are available in three oil capacities utilizing 43 lbs., 50 lbs. and 75 lbs. of oil.

Make the most of your energy dollars with Dean's exclusive Thermo-Tube design. The heating tubes provide a large oil contact surface. Flow-tube baffles control the transfer of heat into the oil. Dean's wide cold zone frypot protects oil integrity by trapping debris under the cooking area, preventing carbonization of particles and wasteful oil deterioration.

Dean's durable temperature probe assures prompt recovery which reduces time lost between loads and requires no electrical hookup.

Dean's Super Runner gas fryers achieve dependability through simplicity of design, durable stainless steel baffles and rugged cast iron burners.
