

**Hold  
1 to 3  
Boxes!**

# UNIVERSAL GLOVE BOX HOLDERS

Save space with Detecto's Model GH Universal Glove Box Holders. These sturdy units are available in three different sizes and hold either one, two or three boxes.

The holders accommodate most glove boxes and are so universal they can be used for tissue boxes as well - the perfect solution where counter or shelf space is limited. The size or type of glove or tissue being dispensed is clearly visible through the front opening. GH1 features a snap-on clip in back. Model GH2 holds two boxes side by side and Model GH3 holds three boxes side by side. All models install in seconds with the included hardware. The all-steel construction and white powder paint finish carries the Detecto lifetime guarantee.

## SPECIFICATIONS
