### Application

Dinex® Therma-cite® looks and feels like real china, but is much stronger, lighter, and less expensive to heat. Developed from Melamine® thermo-setting plastic, Therma-cite® is difficult to chip, dent, scratch, or break – which sharply reduces replacement costs. It can also retain heat and cold for longer periods of time than many styles of china or dishware. Therma-cite is available in white and sand pebble.

The Dinex® Monkey Dish is ideal for serving fruits, desserts and purees. Made of high-density Melamine® for a china-like appearance, it accepts the

same disposable lid as the Classic 8 oz. Mug. Three monkey dishes will fit on a standard 9" china plate under an insulated dome. Dinex® functional design has become a healthcare industry standard.

### Washing Instructions

Weekly, soaking 6-8 hours. Wash in commercial dish machine. Do NOT use bleach. Can withstand washing temperatures up to 180°F.
