

ENCLOSED TRAY DISPENSERS IDT1E AND IDT2E SERIES**Application**

These self-leveling mobile tray dispensers are offered in two styles: single stack, enclosed, with solid bottom and double stack, enclosed, with solid bottom.

These self-leveling mobile tray dispensers can be found on tray lines, in the front or back-of-the-house, or any place your needs require.

Construction

These lifting mechanisms are constructed of type 304 stainless steel with all exposed parts having a #4 finish. This is equipped with self-lubricating delrin wheels and a full complement of stainless steel extension springs that can be easily disconnected to adjust the lifting rate.

A removable stainless steel carrier tray provides bottom support for the racks being dispensed.

The cabinet base is fabricated of type 304 stainless steel with lower edges double folded and reinforced with heavy gauge stainless steel plates at each corner. Four 4" heavy-duty non-marking swivel casters are securely mounted to the base and a non-marking bumper is attached at each corner.
