

PROGRILL™ Model No. TW2540

TORTILLA FLAT GRILL

FLAUNT THEM! Tortillas taste better, and the customer sees them made

FRESH N'HOT on the grill.

Delicious tortillas are what people remember when they tell their friends about the great Mexican meal they had in your restaurant! What better way to make those memories unforgettable than the sight and aroma of freshly made tortillas coming hot off of the grill.

When you combine this easy-to-use, non-mechanical grill with our DP2000 press, the tortillas will keep on coming when the crowd is screaming for more!

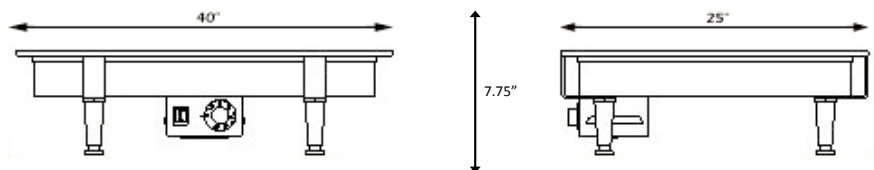

Our heating elements are cast into the grill plate, resulting in far longer life expectancy and even heat distribution.

- *Limited Lifetime Warranty On All Cast-In Heating Elements*

(*Note: Not to be used for hamburgers, bacon or other grease producing food items.)

Includes 72" NEMA 6-20P approved cord and plug.
