DRAWERS - #186:

- ■ Die-drawn 15" x 20" x 5" deep
- ■ Galvanized steel
- ■ Mounted on nylon roller slides
- ■ Facing of stainless steel with formed drawer pull

SHORT FORM SPECIFICATIONS:

Duke Aerohot Worktables - Bakers Tables. Stainless steel top shall be constructed of 14 gauge, 300 Series stainless steel, with 5" riser on back and both ends and down 1-1/2" on operator's side. Underside to be reinforced with heavy gauge galvanized hat channels running full length of top with vinyl cushion between top and channels for sound-deadening. Maple top shall be constructed of 1-3/4" thick laminated edge-grained hard maple, having 5" maple risers on back and both ends. Legs to have heavy galvanized leg sockets screwed securely to underside of maple top or welded to hat channels on stainless steel top and designed to provide maximum rigidity to 1-5/8" diameter, heavy gauge stainless steel tubular legs fitted with adjustable stainless bullet feet. Cross-bracing to be 1-5/8" stainless steel tubing formed to provide tight, sanitary contact with legs at rear and sides. Bracing to be 10" from floor, held to legs with slotless, contour-head bolts. Drawers to be die-drawn 15" x 20" x 5" deep galvanized, mounted on nylon roller slides. Each drawer to have facing of stainless steel formed to provide drawer pull. Two No. 5027 ingredient bins provided with both 60" and 72" long tables. Shipped knocked down with instructions for quick, easy assembly.
