- 3-bar, mounted with screws
- Stainless steel fixed brackets
- Stainless steel end caps
- 34" high or less

SHORT FORM SPECIFICATIONS:

Duke AeroServ Serving Systems - Urn Stand Units. Top shall be constructed of 20 gauge, 300 Series stainless steel, flanged down 2" at 90°. Edges on all sides and ends flanged down 2" against body. Shall be equipped with stainless steel drip trough on operator's side complete with 1" cast brass drain and plug. Drip trough may be installed on tray slide side without additional cost. Location of drip trough must be specified. Removable stainless steel grid provided. Unit to have intermediate shelf and bottom shelf with 9-1/2" clearance between shelves. Body and shelves shall be formed of paint-grip steel with powder coat paint or stainless steel with integrally flanged or channeled edges for rigidity and structural strength. Each body individually welded together with local reinforcements as required. A 3-bar, 18 gauge, 1" diameter stainless steel tubing tray slide, mounted on stainless steel fixed brackets shall be furnished. Tray slide adds 12" to overall body width. 6" polished stainless steel legs to be furnished. Must add "**PG**" to model number for Paint Grip Bodies; "**SS**" for Stainless Steel Bodies.
