## DBC-1 Baking Center

CATALOG NO. 9541

consisting of a 5/9 oven on PFB-1 proofer base

### OVERALL DIMENSIONS:

(oven and proofer)

Height: 68"

Width: 30"

Depth: 30"

### 5/9 CONVECTION OVEN MODEL:

See individual specification sheets for detailed information.

#### 59-E3W:

Electrically heated oven with solid state time, temperature control and pulse fan option, baking control, and 2-speed blower motor.

#### 59-E3ZX:

Electrically heated oven with push button solid state time and temperature control and 5 programmable menu buttons, 5 rack ID timers and 2-speed blower motor.

#### 59-E3ZZ:

Electrically heated oven with push button solid state time, temperature control and 16 programmable menu buttons, 5 rack ID timers, 2-speed blower motor, an auxiliary back up thermostat system plus fan delay gentle pulse.

### PROOFER SPECIFICATIONS:

#### Proofer Exterior:

Stainless steel front, sides, back and top. Proofer door to have large tempered glass with an extruded aluminum frame with a silicone gasket and magnetic seal. Door to be spring loaded/self closing. Unit mounted on 6" polyurethane casters (2 with locks/swivel).

#### Proofer Interior:

Proofer cavity to be constructed of stainless steel. An eight (8) level rack guide will hold up to 16 each 13" x 18" baking sheets.

#### Proofer Controls:

Main on/off power switch. Solid state (RTD) temperature control from 85°-160°F, with 3 different zone settings; proof/warming/holding. Humidity is controlled through an infinite switched dial. Humidity range from zero to high. A one hour electric dial type timer, with continuous sounding buzzer is mounted on the control panel. A fractional HP fan blower gently circulates moist air throughout the proofer cabinet. Water reservoir holds 2 quarts of water.

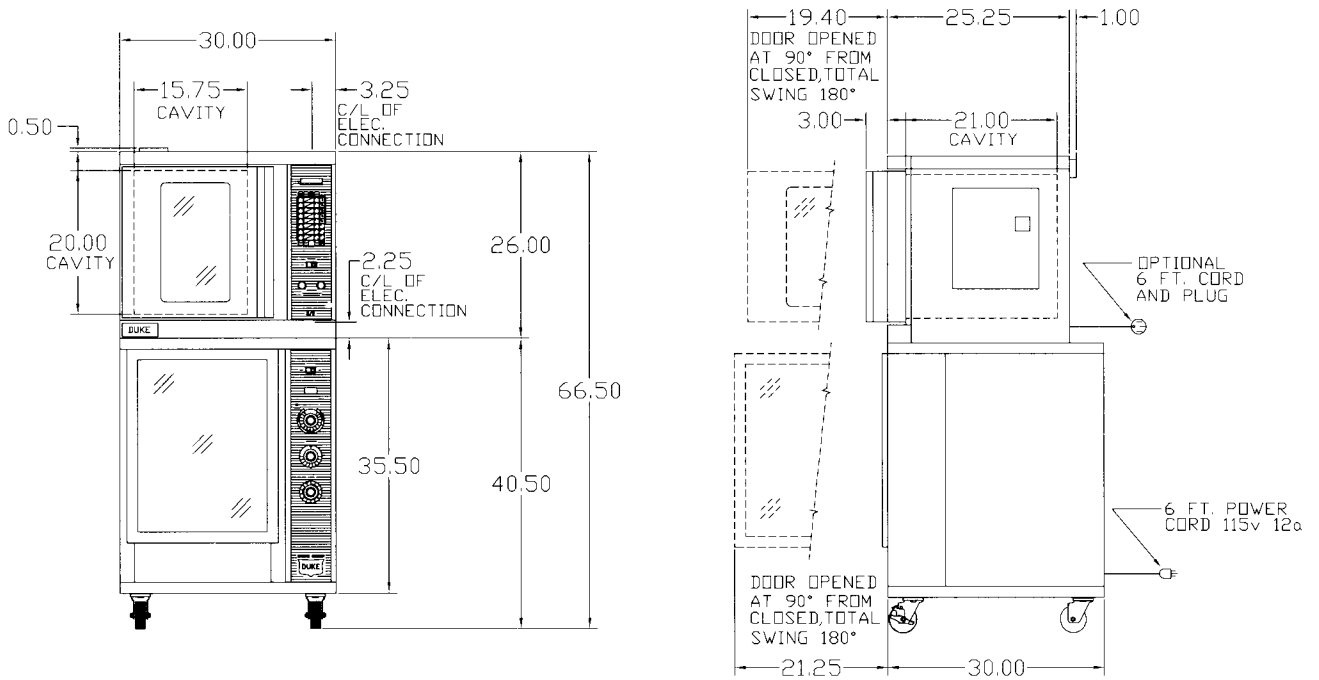

DBC-1 consisting of 59-E3ZZ/PFB-1 shown

### Proofer Heating System:

Total of 1545 watts heating elements; 1045 watts required to control temperature and 500 watts utilized for humidity control. Proofer operates on 120 volts and draws 13 amps. Six foot cord and plug supplied.

### WARRANTY:

A 1/10 warranty consisting of one (1) year parts and labor on the entire proofer/oven (excluding consumables) and an additional 10 year limited oven door warranty is standard.
