

Water filter systems for Follett® icemakers and ice and water dispensers

*With Agion®
antimicrobial product protection!*

† These high-quality filters are manufactured for Follett by Everpure, Inc. Please contact Follett at 800-523-9361 to obtain confirmation of the specific Everpure model numbers covered by this certification.

* Micro-Pure® II is a registered trademark of Everpure, a division of Pentair Foodservice.

** Fibredyne is a trademark of Pentair Filtration Solutions, LLC, Hanover Park, IL, USA.

*** Disclaimer: Antimicrobial protection is limited to the treatment of filter media and does not treat water or ice.

Agion is a registered trademark of Agion Technologies Inc., Wakefield, MA, USA.

Water filter systems for use with Follett Horizon™ and Maestro™ icemakers and Symphony™ ice and water dispensers. Systems include pre-filter, primary filter(s), pressure gauge and wall mounting bracket. Choose the 3,000 gallon standard capacity or the 15,000 gallon high capacity model.

Important: Not for use with carbonated water – separate system required.

Better-tasting, cleaner, ice and water

- Includes Micropure* II media (001300229) or Fibredyne** media (00978957), both featuring Agion antimicrobial product protection to inhibit the growth of biofilm and enhance filter performance***.
- Traps dirt as small as 0.5 micron in size
- Removes chlorine, off-tastes and odors
- Advanced filtration system filters out parasitic cysts
- Certified to ANSI/NSF standards 42 and 53†

Improves icemaker performance

- Dramatically reduces the most common water-related icemaker problems to keep icemakers functioning at full capacity
- Reduces scale build-up from dirt and minerals in the water
- Removes dirt and abrasive particles that can damage icemaker
- Saves energy and reduces downtime

Space-saving design

- Both systems can be mounted in areas as small as 21" (533 mm) high by 14.75" (375 mm) wide or out of the way below standard 34" – 36" (864 mm – 915 mm) counters

Pre-filter system saves money

- Economical pre-filter filters out large particles and extends life of primary filters

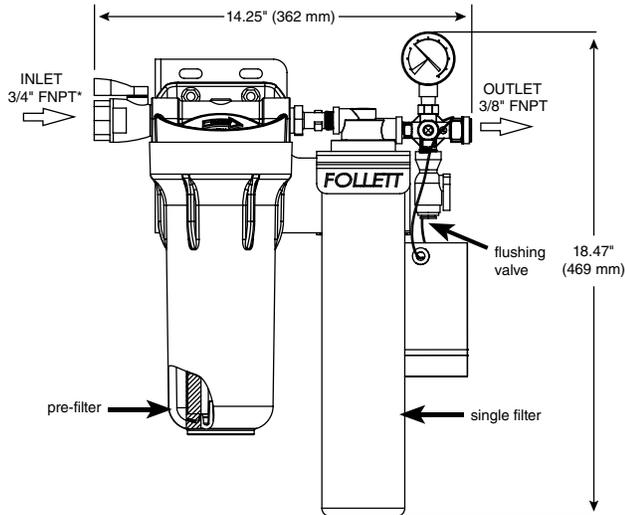

Choice of capacity to meet your specific needs

Complete Water Filter Systems	Item #	Capacity
Standard: for all Symphony ice and water dispensers and Maestro Chewblet ice and flake ice icemakers	00130229	3,000 gal (11,356 liters)
High-capacity: for all Follett icemakers and ice and water dispensers	00978957	15,000 gal (56,781 liters)

Replacement Cartridges	Item #	Cartridge Quantity Per Package
Primary filter, standard capacity - carton	00954297	6
Primary filter, standard capacity - single	00130245	1
Primary filter, high-capacity - carton	00978973	6
Primary filter, high-capacity - single	00978965	1
Pre-filter - carton	00954305	12
Pre-filter - single	00130211	1

Water filter systems for Follett® icemakers and ice and water dispensers

Standard Primary Filter System – item# 00130229 High-capacity Primary Filter System – item# 00978957

* 3/8" reducer bushing included with system.

Approximate shipping weight

00130229 – 15 lbs (6.8 kg)

00978957 – 15 lbs (6.8 kg)

Specifications

- Clearance required: 2.5" (64 mm) at bottom of filter for cartridge removal
- Flow rate: 0.5 gpm (1.9 lpm)
- Pressure range 10 – 125 psi (0.7 - 8.6 bar) – (00130229 - 0.59 gpm, 00978957 - 2.59 gpm), non-shock
- Capacity: Certified for chlorine and taste; odor reduction
00130229 – 3,000 gallons (11,400 liters)
00978957 – 15,000 gallons (56,781 liters)
- Water temperature: +40 to +90 F (+5 to +32 C)

NSF international standards

Standard No. 42: Aesthetic Effects

Chemical reduction: taste & odor and chlorine reduction

Mechanical filtration: particulate reduction, class 1: 99.9% reduction of particles 0.5 micron and larger in size

Bacteriostatic effects:

Standard No. 53: Health Effects

Mechanical filtration:

Cyst reduction

Turbidity reduction (high capacity filter, item# 00978957, only)

Both systems (manufactured by Everpure, Inc.) have been tested and certified by NSF only for the functions listed above. Please contact Follett at 800-523-9361 to obtain confirmation of the specific model numbers covered by this certification. Check for compliance with state and local laws and regulations. Do not use where the water is microbiologically unsafe or with water of unknown quality without adequate disinfection before or after the unit. May be used with disinfected water where filterable cysts may be present.

Horizon, Maestro and Symphony are trademarks of Follett Corporation.

Chewblet and Follett are registered trademarks of Follett Corporation, registered in the US.

Follett reserves the right to change specifications at any time without obligation. Certifications may vary depending on country of origin.
