Keypad Locking System

Factory-installed keypad lock provides more product security and ease of use than standard cylinder lock. Multiple user codes provide greater control over access. Available factory-installed for new REF orders; as a retrofit kit for existing REFs. Not available for FZR series.

Increased security

- Door opens only when authorized code is entered
- Door relocks automatically when closed
- Each keypad provides one master code and up to eight user codes
- Lock-out feature prevents opening after repeated random code entry
- Secure and reliable motor-driven bolt operation

Ease of use

- One-step operation – enter authorized code and open door
- No turning of keypad to unlock or relock door
- Easy addition and deletion of user codes
- Two 9-volt alkaline batteries provide approximately 8000 openings
- Low battery alert signals for battery replacement
- Batteries accessed from front without tools
- All codes retained during battery replacement

Temperature Alarm

Solid-state temperature alarm provides hi-low audible and visual alarms, visual verification of product temperature, and highest-lowest temperature indication.

Protection for medications and patient supplies

- Audible and/or visual alarm alerts staff to temperatures above or below set points
- Product simulation bottle mimics product temperature for more accurate readings
- Digital product temperature display in °F or °C
- Dry contacts can be wired to central alarm system
- 9-volt backup battery (included) ensures protection during power outages
- Supports JCAHO standards for medications, local and state codes for food and beverages
- Records highest and lowest temperature since last time reset button was pressed

Easy installation

- Compact module (3.125"W x 1.875"D x 4.75"H (80mm x 48mm x 121mm)) mounts in desired location with screws (not provided)
- 8' (2.4m) probe wire increases location flexibility

† REF5-BB and FZR5-PL include alarm in standard temperature surveillance module (below).

Temperature Surveillance Module

All-in-one temperature surveillance module provides extra security for critical product storage.

Monitor product temperatures with confidence

- Audible and/or visual alarm with user-selectable high and low setpoints
- Compact chart recorder with easy-to-read 6" (153mm) 7-day chart
- Digital product temperature display
- LED power status indicator
- Remote contacts for connecting to central alarm system
- 9-volt backup battery ensures protection during power outages
- Includes product simulating bottle and box of (60) 7-day charts (-50 to 50)

Easy installation

- 15' (4.6m) probe wire with immersible stainless tip
- 6' (1.8m) power cord and AC adapter
- Surface or wall mount ready
Replacement charts and pens

- Replacement charts (box of 60, 7-day, -50 to 50) (item# 00162099)
- Replacement pens (box of 6, red) (item# 00162081)

Medication System Compatibility Brackets

Door brackets allow Follett refrigerators and freezers to be used with Pyxis* and Omnicell* medication inventory and dispensing systems.

- Bracket installation must be performed by authorized Pyxis or Omnicell* installer.
- Follett brackets are not required for MedSelect* and AcuDose-Rx* compatibility.
- Undercounter installations may require side clearances for lock boxes. Check with your medication dispensing system representative.

Additional Shelves

REF series cut out shelf
- Epoxy-coated wire shelf has cut-out to fit around evaporator drain
- Provides additional 2.4 sq. ft (.22 sq m) of shelf storage space
- Allows storage to each side and in front of evaporator housing

FZR series full size shelf
- Epoxy-coated wire shelf
- Provides additional 2.3 sq. ft (.21 sq m) of shelf storage space

Controller Programming Keys

Controller keys allow facilities to quickly change controller temperature displays from factory settings to different scales (˚F or ˚C) or to upload customized settings to multiple refrigerators or freezers.

- No limit to number of times keys may be used or reprogrammed
- All keys can be overridden by downloading any temperature setting and scale configuration from a refrigerator or freezer to the key
- All keys plug into 5 pin connection in controller back
- Note – FZR, REF, REF-BB, and FZR5-PL keys are not interchangeable
- Contact factory for key specific to your model and application

Follett reserves the right to change specifications at any time without obligation. Certifications may vary depending on country of origin.
