

WOOD BURNING OVENS

GX-B OVEN

GX-D OVEN

WOOD BURNING OVENS

The uses for these ovens are unlimited and will cook any food to perfection, with the added bonus of the smokey flavours of the natural timbers.

For best results only natural hard woods should be used, as they generate the most heat and burn cleaner.

Ceramic Fibre Insulation: Aprox. 2" thick

Maintenance: General cleaning

Temperature Control

- Getting your oven to temperature takes about 15-20 minutes.
- Temperature is controlled by the sliding grill on the fire box.
