

## MMS 501 MEAT MIXER

MMS 501

### MMS 501 MEAT MIXER

This meat mixer allows consistent mixing of meats and additives. The MMS501 has a stainless steel tank, mixing blades and cover, a cast iron structure, and steel body which is specially painted. The transmission consists of a chain and a belt. The tilting tank is mounted on self-adjustable ball bearings and is equipped with a tank lock.

A safety device does not permit the machine to operate when the cover is open. It makes day-to-day production easier and cost effective. Ideal for small to medium applications.
