TM

Built like no other freezer available, these units address the most demanding and punishing environments. Stationary or reach-in units are *not* made to be moved – while FWE’s construction absorbs vibration and shock during transport.

Our forced air “COLD-TEMP” system maintains a balanced temperature which gently circulates the cold air evenly throughout the cabinet.

Exclusive “**Food Sentry**” easy-to-use controls offer the ultimate performance and accurate cabinet temperatures. Continuously intuitive self-defrosting cold system *with on demand override* make operation convenient and user friendly.

The versatile “UFS” GN Rack holds 12" x 20" pans, Gastro-Norm, and shelves provided for covered plates. Mobile freezers have the same high quality features and construction that have made FWE the “Choice of the Professionals.”
