## Wet Waste Sink Cabinets

SWB-12-C, SWB-18-DW, SWB-18-DB

### Standard Features

- Manufactured with total welded construction to meet NSF® standards
- All stainless steel construction
- Adjustable stainless steel bullet feet
- 9-1/4" by 11-1/2" by 6" deep sink bowl with hot and cold water gooseneck faucet
- Faucets are standard and ship mounted
- Lift-out perforated plastic wet waste strainer
- Model SWB-12-C has a cabinet base with front hinged access door and storage space for three 1-gallon chemical containers
- Model SWB-18-DW has a cabinet base with work surface trash chute hole and front hinged access door (stainless steel trash container, model DWC, is available as an accessory)
- Model SWB-18-DB has a drainboard work surface with recessed wet waste sink below
- Models SWB-24L-C and SWB-24R-C include a 12" drain board section in the work surface and an open front cabinet base with center vertical divider. The L or R in the model number designates the sink location as left or right.

**All faucets are NSF/ANSI 61, Annex G low lead compliant**

#### Legs

- 1-5/8" diameter, 16 gauge stainless steel
- Stainless steel bullet feet

#### Materials

- 20 gauge stainless steel parts include: all components unless otherwise noted
- 18 gauge stainless steel parts include: leg pads

### Product Information

Wet waste sink cabinets are offered in five different 24" deep models. The 12" wide chemical storage cabinet holds three 1-gallon chemical containers. The 18" wide dry waste cabinet holds a trash receptacle and has a 6" round trash chute in the work surface. The trash receptacle is not included, but a stainless steel dry waste container is available as an accessory, specify model number DWC. The 18" wide drainboard model includes a drainboard work surface with recessed wet waste sink below.

The two 24" wide models include a 12" drainboard section with lift-out perforated insert and open front cabinet base. A vertical center divider allows three 1-gallon chemical containers to be stored below the sink with the other side of the cabinet available for additional storage. The wet waste sink may be located to the left or right.
