Stainless Steel Tray Shelf Details

- TSC-* 12" Deep Tray Shelf
- TSD-* 15" Deep Tray Shelf
- TS-20X* 20" Deep Tray Shelf

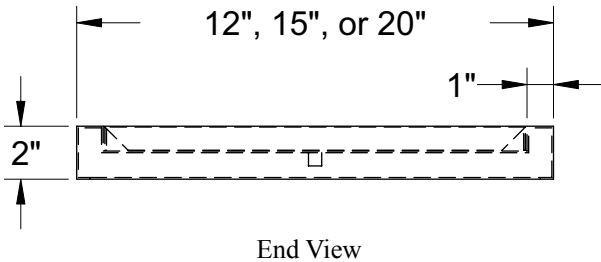

* Reflects the length of the overshelf in inches

Standard Features

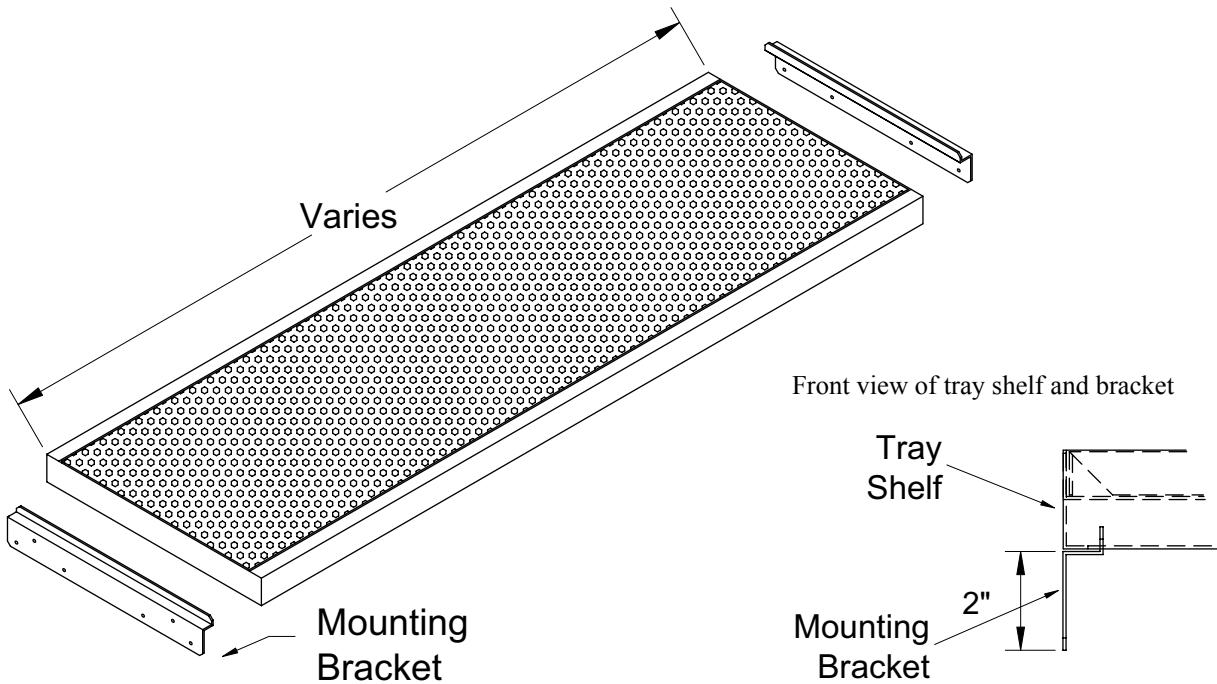

Stainless steel draining tray shelves come standard with all Glastender pass thru cocktail stations. Tray shelves are constructed of 20 gauge stainless steel and have stainless steel removable perforated inserts that are flush with the side rails. The drain is a 1/2" welded tailpiece.

Tray shelves are also available separately for installation into existing cocktail station areas. Tray shelves come in 12", 15", and 20" front-to-back depths with custom sizes available. The tray shelf length varies depending on the installation requirements.

Tray shelves are intended to mount between two vertical surfaces, such as the end panels of a pass thru cocktail station. Brackets are provided for mounting. See the details below.
