## Compact, Standard, & VariFruit™ Series Countertop Fruit Juice Machines

Model JX15AC

Model JX28AC

## Features

- **More Than Just Oranges** – Select models have the ability to process other varieties of fruit including lemons, limes, grapefruits, and pomegranates.
- **Avoid The Bitter Peel Taste** – The exclusive design of the juicer insures that the peel is separated from the pulp & not pressed during the squeezing process. This is the secret to fresh sweet juice without any trace of bitter peel oil.
- **Micro Serrated Slicing Blade** – Heavy-duty stainless steel blade strong enough to quickly slice through the thickest peel.
- **Available Carousel Style Automatic Feeder** – On models with this feature fruit is automatically fed into the machine quickly & efficiently as the feeder rotates.
- **Requires Minimal Counter Space** – The Compact series models are among the smallest automatic juice machines on the market.
- **Easy to Disassemble & Clean** – No tools required to remove dishwasher safe components.
