HSL300 SPIRAL MIXER

STANDARD FEATURES

- Fixed Bowl
- Stainless Steel Wireform Bowl Guard
- Dual Electronic Timer Control
- Reversible Bowl Drive
- Bowl Jog Control
- Front and Rear Casters
- Adjustable Front Stabilizing Feet
- Two Speeds
- Aluminum Cast Cover
- Steel Body Frame
- Powder Coat Finish

MODEL

- HSL300 – 300 lb. Spiral Mixer

Specifications, Details and Dimensions on Inside and Back.

SOLUTIONS / BENEFITS

HIGH TORQUE MOTORS

Durability

- Heavy-duty to meet the most demanding operations.

Stainless Steel Bowl

Rugged, Long Lasting

- Bowls are designed for long-term usage under heavy-duty conditions.

Stainless Steel Wireform Bowl Guard

Protection, Ease of Use

- Interlock prevents operation when front portion of guard is out of position.
- For observing and easy adding of ingredients without stopping mixer.

Dual 20 Minute Electronic Timer Controls

Convenience, Ease of Use, Recipe Consistency

- Lets you set the mixer for automatic shift from first to second speed.

Reversible Bowl Drive

Flexibility, Versatility

- Great for incorporating ingredients and mixing small batches.
- Gives you versatility and high production from a single unit.

Bowl Drive

Stability, Reliability, Long Lasting

- Rides on ball bearings, eliminates extra bowl support and adds durability.

Bowl Jog Control

Convenience, Ease of Use, Productivity

- Makes it easy to unload, gives you quicker batch turnaround.

HSL300 MIXER CAPACITY CHART

PRODUCT	Flour	Batch
Bread 60% AR	165 lb.	290 lb.*
Whole Wheat	150 lb.	290 lb.*
Thin Pizza 40% AR	100 lb.	145 lb.*
Med. Pizza 50% AR	130 lb.	190 lb.*
Light Pizza 60% AR	175 lb.	250 lb.*
Pie Dough	–	100 lb.□
Bagel 50% AR	100 lb.	165 lb.*

NOTE: % AR (% Absorption Ratio) - Water weight divided by flour weight. Capacity depends on moisture content of dough. Above capacities are based on 12% flour moisture content and 70°F water. Bread flour was used for bread dough capacities and high gluten flour was used for pizza and bagel doughs.

* If water temperature is under 55°F or if 25% or more of the water is ice, reduce batch size by reducing flour by 25 lbs. and other ingredients accordingly. Cold water or ice causes dough to be stiff and hard to mix, increasing the load on the mixer transmission and motor.

□ Pie dough can be successfully mixed in speed 1 with counterclockwise bowl rotation.

1 gallon of water weighs 8.33 lbs.

HSL300 SPIRAL MIXER

SPECIFICATIONS

MOTORS:

High torque, ball bearing, totally enclosed, fan cooled, polyphase squirrel cage, induction run type. The spiral arm is two speed 3.5/6.4 H.P. The bowl motor is 1.0 H.P.

ELECTRICAL:

208/60/3, 32.8 amps. ETL Listed for Safety and Sanitation. Call for additional voltages.

CONTROLS:

Operator and main control boxes are dustproof. Magnetic contactors with automatic resetting thermal overload protection for each motor. "Start-Stop" push buttons. Reduced voltage fused pilot circuit. Direction of bowl rotation selectable by rotary switch. Bowl can be operated without spiral arm using "Bowl Jog" push button. Unit can operate in continuous mode or with timer.

BOWL GUARD:

Wireform, stainless steel. A bowl guard interlock is provided to prevent spiral arm operation when the guard is up.

TIMERS:

Dual electronic timer controls can be set between 0-20 minutes. Time for low and high speeds can be preset to increase productivity. Mixer will automatically shift from low to high speed when the time cycle is completed for low speed. Audible tone informs operator when mix cycle is completed. Large knob dial simplifies setting time.

DRIVES:

The spiral mix arm and the bowl have separate drive systems. Each uses a constant mesh helical gear train that is driven by its motor and multiple belt drive. All gears are lubricated. All shafts run on ball bearings.

SPEEDS:

Spiral arm speed "one" is 100 RPM. Speed "two" is 200 RPM. The bowl speed is 15 RPM.

BOWL:

Polished stainless steel, 228-quart capacity with center post.

CASTERS:

Ball bearing mounted front and rear casters allow easy movement for cleaning. Adjustable front stabilizing feet are provided.

FINISH:

Mixer is finished in gray powder coat paint. Top is gray liquid bicomponent paint.

WEIGHT:

(Approximate) Net: 1,157 lbs. Shipping: 1,267 lbs.
