 5-5/8" tall (143 mm)
 7" tall (178 mm)

 Combination Rack

 Peg Rack
 Machine Stand
 6" (152 mm) high
 18" (457 mm) high

Specifications

Uses 0.73 gallons (2.8 liters) of water per rack Uses 19.2 gallons (72 liters) of water per hour Cleans 26 racks per hour One minute, forty-seven second automatic cycle Powerful 3/4 hp wash pump motor Built-in booster heater Fresh water rinse eliminates wash water contamination Air insulated between body and stainless steel housing Sani-Sure[™] feature assures proper rinse water temperature 304 stainless steel construction Unique timer allows the machine to be customized for extended cycle times

Notes:

A vent hood is not recommended above the Jackson Avenger® HT-E as it does not produce excessive vapors. *Always check with the local building code to know what type of ventilation is required for commercial dish machine installations in your area.*

Normal operation of the Avenger® HT-E generates steam that may escape from the door. Materials such as wood laminate, veneers, etc. are unsuitable for use in areas exposed to dishwasher steam and detergents. Stainless steel or other moisture-resistant shields are recommended for surfaces adjacent to Avenger® HT-E sides and top.

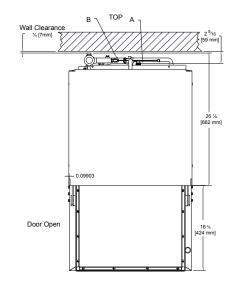

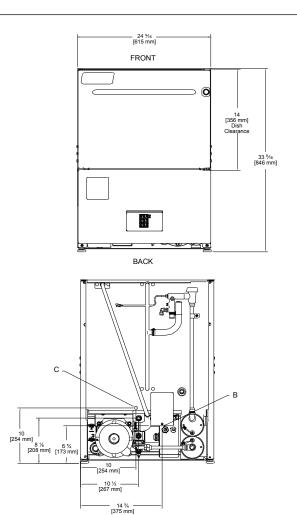

Avenger® HT-E

LEGEND:

- A- Water Inlet 1/2" Female Pipe thread, 2 1/2" AFF (Connect to a true 1/2" ID water line)
- **B- Electrical Connection**
