## SHUTTLE FEATURES

- Eliminates scooping and shoveling ice into carts, tubs, etc. prior to delivery.
- Provides ice in carts ready to be shuttled to any location at a moment's notice.
- Ice guillotine easily halts flow of ice between storage and shuttle carts, prevents ice spills and allows ice-maker to continue harvesting to resupply the carts upon their return.
- Access door in storage permits easy ice breakup in the event of bridging. Door provides access for scooping ice if desired. Door opening is 14" x 18".
- Poly carts standard, stainless steel optional.
- Easy clean stainless steel 1 1/2" tubular base maximize sanitation and is unsurpassed in strength.
- Hopper and cart drain into central rear drain pan just above floor level.

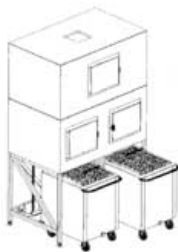

- Poly and stainless steel hopper liners.
- Storage bin is 1-1/2" foamed-in-place polyurethane for maximum insulation and longest ice preservation.
- Accepts optional end-line crusher on any bay. Use with crushed ice cart.
- Fully insulated, and gasketed door, providing a completely sanitary seal.

## OPTIONAL FEATURES

- Ice Crusher (EL-50).
- Capacity expansion sleeves to increase storage within the same floor space in 30" heights.
- Custom models to your required dimensions.
- Additional shuttle carts available.
