For further information, consult your service and installations manual.

IMPORTANT: It is the responsibility of the purchaser to install and maintain the water supply to Lang equipment. Failure to provide satisfactory water quality to operate the oven properly can cause damage to integral components and void your warranty. This oven must be installed to comply with the applicable federal, state or local plumbing codes.

Lang offers water treatment products and recommends using Everpure products to properly filter your water. Using these products will protect your investment and helps to maintain the warranty of the combi.
