

SPREADER PLATES and FRONT ENCLOSURES

Functionality and Uniformity for Your Cook Line

- Spreader plates and front enclosure panels afford additional working space.
- Give your cook line a uniform, clean appearance. Easier to maintain.
- Spreader plates are built of 16-gauge stainless steel with a range-matching backsplash.
- Work surface is 6" or 12" wide and 38" deep. Custom widths also available.
- Spreader plates are securely fastened to adjoining equipment with cantilevered braces to support heavy loads.
- Recommended for use between ranges or ranges and wall. Specify placement in cook line when ordering.
- Custom spacers, open or enclosed, can be fabricated to your specifications.
- Standard warranty covers parts and labor for one year.
