

Maywood Furniture proudly introduces....

The Maywood **ORIGINAL** Series

"The original table with a new label"

The exceptionally sturdy table you've seen with the black square legs, made in the Maywood factory for seventy years, is now available for the first time from Maywood Furniture Corporation.

Our tables, found in thousands of banquet facilities around the world, testify to the exceptional quality and durability of our time-tested products.

Features such as a self-leveling chasis and our unique crimped-on edge make this the top of the line in the banquet table industry.

Out-standing quality, supported with personalized customer service, and at a fabulous price!

Government tested to 3500 pounds

SPECIFICATIONS:

Plywood: 5/8" thick plywood or equivalent with no voids or patches. Protective walnut stain applied to top and bottom. A 3/8" thick plywood on rectangular tables only.

Laminate: 5/8" plywood core with .050 thick high-pressure laminate top and backer.

Formica® laminates available:
 #385 Regency Walnut #927 Folkstone
 #346 Natural Oak #909 Black
 #949 White
 #7583-58 Victorian Mahogany
 #507 Folkstone Grafix
 #117-58 Colonial Cherry
 #754-90 Black Faux Marble (polished)

Foam: Expanded vinyl pad permanently bonded to 5/8" birch exterior plywood or equivalent.

Edges: Channel Aluminum Edge (CAE)-heavy-duty edge securely crimped into top; available on all finishes. Black Vinyl Flush Edge (VFE)-"T" molding; available on plywood and laminate tops. Aluminum Flush Edge (AFE)-standard edge for the 3/8" plywood rectangular tops secured from underside with rivets.

Chassis: Legs are 1-1/2" square, 20 gauge steel tubing. Self-supporting unit welded and riveted throughout and consists of two 1-3/4"x1"x1/8" rerolled steel angles and two additional steel cross rails. Stretcher piece welded between the legs near the top to provide maximum strength and rigidity. Locks and unlocks with a simple, secure tab welded to the stretcher. All parts powder coated black.
