

# The Maywood Training Table Series

*Ideal for Classroom Setting*

## **Specifications**

**Tops:** All 5/8" plywood core with a .050 thick high-pressure laminate top and bottom.

### **Formica brand laminates available:**

#385 Regency Walnut

#346 Natural Oak

#927 Folkstone

#909 Black

#949 White

#2494 Dusty Jade

#126-90 Green Faux Marble (polished)

#754-90 Black Faux Marble (polished)

*Other laminates available as a special quote, ask for pricing and availability.*

**Edges:** Black Vinyl Edge (VFE) Black flat vinyl "T" molding

**Chassis:** Legs are 1-1/2" Square, 20 gauge steel tubing. Chassis is a self-supporting united welded and riveted throughout and consists of two longitudinal 1 3/4" x 1" x 1/8" rerolled high carbon steel angles. A rectangular stretcher piece of the same material as the legs, 1 1/2" x 4", is welded between the legs near the top to provide maximum strength and rigidity. Leg assembly is secured to the angle iron rails with 1/4" steel rivets. An automatic lock, welded to the leg stretcher, insures that the elbow braces lock in the past center position.

**Modesty panel:** 8" high x overall length of the table. Panel is constructed with the same plywood core, laminate top and backer, and VFE as laminate top. Fastened to the table chassis with "L" shaped, 13 gauge steel brackets which pivot on 1/4" steel rivets point for folding.

Folding Thickness of complete table if 4 1/2"

All metal parts are black powder coated.
