Description:

Randell's RANFG IC Series Ice Cooled Pan Units designed for virtually any cold food serving application, the RANFG IC series is enclosed in brilliant one-piece fiberglass body and 16 gauge stainless steel top.

Specifications:

CABINET CONSTRUCTION: One-piece molded fiberglass body for smooth exterior finish. All corners and areas where accessories are mounted are reinforced internally with metal backers.

TOP CONSTRUCTION: Exterior top is standard in reinforced 16 gauge 300 series stainless steel with #4 finish. Optional 14 gauge tops available at a minimal upgrade.

ICE WELL CONSTRUCTION: The ice pans are constructed of die formed stainless steel and are provided with a drain and a gate valve. The gate valve is accessed through the louvered access door. Draining is accomplished by setting a bucket in front of the door and opening valve (simple and easy-eliminates floor drain requirements).

This equipment is intended for use in rooms having an ambient temperature of 86°F (30°C) or less.

Standard Features:

- Hinged access to drain gate valve
- Concealed locking mechanism with easy to use spring-activated catch

Additional Available Configurations:

- RANFG IC "S" Series
Same basic construction of standard enclosed base series with an optional open shelf storage compartment. Available in the 4, 5 & 6 pan models to offer most efficient space capacity.
