The Deluxe Food Cooker produces steam using plain tap water to quickly heat and reconstitute food items.

Simple push-button action delivers a fully adjustable impulse of steam. Because the amount of steam is consistent, it removes the guesswork and produces a uniform finished product from one operator to the next.

The Deluxe Food Cooker is manufactured from the finest materials available and assembled to Roundup's strict quality standards. All units are tested at the factory to ensure dependable trouble-free operation.

NOTE: Units with a direct water hookup require a water pressure regulator. The psi should be between 20 and 30.

Features:

- 0-99 minute timed steam cooking with instant warming button.
- Non-clogging.
- Uses plain tap water.
- Models available with either a self-contained water reservoir or direct water hookup.
- Safety steam release valve.
