

**GST-3V**

The GST-3V is a dual-belt toaster that can be used for toasting crowns, heels, clubs, and Texas toast as well as two-sided bun toasting. This toaster features a new design that saves valuable counter space and increases energy efficiency.

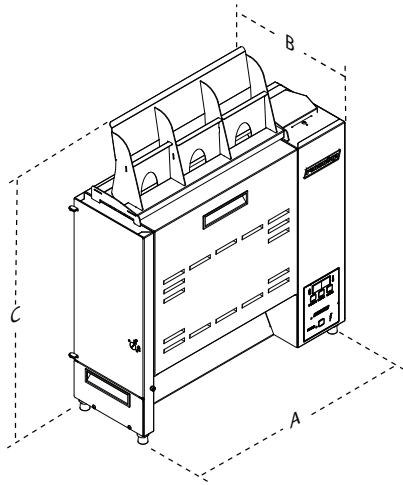

## Features

- New energy-efficient design reduces heat loss and prevents outside surface of toaster from becoming hot.
- 30% energy savings compared to other toasters.
- Electronic temperature controller ensures proper calibration and even toasting.
- Continuously moving belts allow immediate feeding of buns without sticking.
- Fully programmable temperature and motor speed settings ensure your products are toasted properly.
- No bun marking.

# GST Gold Standard Toaster

## Dimensions
