

SDC Steamer Display Cabinet

SDC-500

Prepare for the heavy rush of customers by keeping foods hot and ready to serve. The Steamer Display Cabinet quickly steams pre-cooked refrigerated or frozen specialty foods and holds them at a ready-to-eat temperature.

The Steamer Display Cabinet is lit from the top to attractively showcase foods to customers, and the adjustable digital thermostat makes it easy to change the foods on display. It includes a resettable hi-limit thermostat for additional safety.

Features

- Uses plain tap water.
- Five sliding shelves for easy access to product.
- Adjustable shelf height and shelf angle.
- Adjustable solid state thermostat with digital display.
- Resettable hi-limit thermostat turns off power to the heater and upper lighting.
- Tempered safety glass.
- Stainless steel construction for long life.
- Easy-to-fill water pan.
- Unique water tube allows for easy monitoring of water level and can be used to quickly refill or drain the unit.
