## C0630 - 600 lb Cube Ice Machine

Prodigy ${ }^{*}$ Modular Cube Ice Maker

Features
Prodigy ${ }^{3}$ cubers use significantly lessenergy and water than other cube ice machines, exceeding Califomia and Federalenergyefficiency regulations.

AutoAlert"w indicator lights constantly communicate about operating status and actually signal your staff when its time to descale, sanitize, and moremaking upkeep practically fool proof.

The patented intersense ada ptive purge control delivers maximum reliability by reducing scale buildup fora longer time between cleanings.

Preventative maintenance is simpler than everwith easity-removed panelsallowing clear access to intemal components and a diagnostic codedisplay insuring the right fix the first time. Reussble air filter is easily removable from the outside.

All external panel components arecrafted for optimal aesthetic appeal through superior fit and finish.

An optional advanced feature Smart-Board"w provides NA FEM data protocol and additional operational data that can be displayed on-screen or transmitted remotely, resulting in earlyalert and fast diagnosis of operating issues.

An optional Vari-Smart" ultrasonic ice level control sensorallows you flexibility to program ice levels, for up to 7 days, keeping just the right amount of freshly made iee in the bin.

## 24 Hour Volume Production
