## C0722 - 700 lb Cube Ice Machine

Shown on ID150 with stand.

## Features

Prodigy ${ }^{\circledR}$ cubers use significantly less energy and water than other cube ice machines, exceeding Federal energy efficiency regulations.

AutoAlert ${ }^{\text {TM }}$ indicator lights constantly communicate about operating status and actually signal your staff when it's time to descale, sanitize, and moremaking upkeep practically foolproof.

The patented WaterSense adaptive purge control delivers maximum reliability by reducing scale buildup for a longer time between cleanings.

Preventative maintenance is simpler than ever with easily-removed panels allowing clear access to internal components and a diagnostic code display insuring the right fix the first time. Reusable air filter is easily removable from the outside.

All external panel components are crafted for optimal aesthetic appeal through superior fit and finish.

An optional advanced feature Smart-Board ${ }^{\text {TM }}$ provides NAFEM data protocol and additional operational data that can be displayed on-screen or transmitted remotely, resulting in early alert and fast diagnosis of operating issues.

An optional Vari-Smart ${ }^{\text {TM }}$ ultrasonic ice level control sensor allows you flexibility to program ice levels, for up to 7 days, keeping just the right amount of freshly made ice in the bin.
