

FOOD WARMERS: FOOD SERVERS BUTTER WARMER, MIX-N-SERVE™ Model MNS

MNS 05550

US LISTED

2 YEAR
WARRANTY

BID DESCRIPTION

The Mix-N-Serve™ is designed for serving butter, hot chocolate and other similar products that separate. It's constructed of stainless steel and black ABS plastic. To keep product uniform throughout the day, a magnetic agitator continuously stirs.

The adjustable thermostat holds product up to 170°F (77°C) and locks to prevent accidental changes. A 400 watt heating element heats product evenly without burning or scorching. Two on/off lighted rocker switches control the heating element and stir mechanism.

The Mix-N-Serve™ includes a melting basket and removable 6 quart (5.7-L) stainless steel food vessel. Product is dispensed from a heavy duty, spigot style faucet.

STANDARD FEATURES

- Durable stainless steel and plastic construction
- 6 quart (5.7-L) capacity
- Removable food vessel for easy cleanup
- Thermostat lock prevents accidental temperature changes
- Magnetic agitator keeps product from separating
- Independent control of heat and stir features

TWO YEAR WARRANTY

Server Products equipment is backed by a two-year limited warranty against defects in materials and workmanship. For a copy of our complete warranty statement, please refer to server-products.com.
