BEVERAGE STATION

Model BS-ST 24 OZ & BS-ST 14 OZ

BEVERAGE STATION 24 OZ BS-ST 80105

2 YEAR
WARRANTY

BID DESCRIPTION

The Beverage Station is ideal for dispensing chilled dairy and granular sweeteners into cups of coffee, particularly at the drive-thru window. Station comes complete with an EZ-Cream™ Dairy Dispenser, a SweetStation™ rack with flavor decals and (3) InSweeten™ dispensers all combined on a durable stainless steel stand.

The EZ-Cream™ Dairy Dispenser 94160 utilizes thermoelectric technology to chill a 2 quart (1.9 L) removable food vessel. It features an integrated discharge tube chiller block, which ensures food is kept at a safe serving temperature for the entire holding and serving process. In operation, the EZ-Cream™ Dairy Dispenser holds product consistently below 41°F (5°C) in up to 86°F (30°C) ambient temperature. Specialized discharge valve keeps cream from splashing. The EZ-Cream™ Dairy Dispenser is customized to dispense a $\frac{5}{16}$ oz (9.2 mL) portion per stroke which is equivalent to the common creamer packet but can be adjusted to serve from $\frac{1}{8}$ oz to 1 oz.

The SweetStation™ dispenser system has preset sweetener portions that are equivalent to common portion packs and are designed for ergonomic, single-handed operation. InSweeten™ dispensers come in 24 oz or low-profile 14 oz capacities. Color-coded flavor decals and portion triggers make brand identification easy.

SweetStation™ comes complete with triple dispenser rack, (4) flavor decals, (1) InSweeten™ dispenser with 2.8 g white trigger and (2) InSweeten™ dispensers with 1 g yellow, pink & blue triggers.

STANDARD FEATURES

- EZ-Cream™ Dairy Dispenser is NSF listed for potentially hazardous food including dairy; NSF Standard 18 & 20
- EZ-Cream™ Dairy Dispenser holds (200) $\frac{5}{16}$ oz (9.2 mL) portions
