

TOPPING EQUIPMENT

POUCHED TOPPING WARMER

Model EZT & EZT-S

EZT-85899

EZT-S 85790

BID DESCRIPTION

The EZ-Topper™ is a sealed system that portions heated fudge and caramel topping while preheating an additional pouch of each product. Constructed of a stainless steel base with a black plastic top and bottom, the airtight and sanitary system eliminates the need for a water bath.

EZ-Topper™ exclusively uses 48-oz (1.4 L) pouches with a center fitment. Capacity for the EZT is four pouches; two dispensing, two preheating and the capacity for the EZT-S is two pouches; one dispensing, one preheating.

Two adjustable, precalibrated thermostats control individual 200 watt heating elements on the EZT while the EZT-S has one thermostat. Temperature settings are factory preset at 120°F (49°C) on the left well and 130°F (54°C) on the right. Range of temperature is from 100°F (38°C) to 200°F (93°C). Power is controlled with an ON/OFF rocker switch for each well.

Pumps are constructed with a cast valve body featuring captured valve balls to prevent loss. A maximum portion of 1 ounce (30 mL) per stroke can be reduced in 1/8 ounce (3.7 mL) increments with supplied gauging collars.

STANDARD FEATURES

- Stainless steel base and pumps for durability
- Closed, sanitary system dispenses from one pouch while warming a second pouch to serving temperature
- EZT accepts (4) 48-oz bags (1.4 L); (2) dispensing, (2) preheating while the EZT-S accepts (2) bags—eliminating downtime during changeout
- Outside of pump remains clean
- 200 watt heating elements provide individual heating
- Maximum pump stroke yields 1-oz (30 mL), adjustable in 1/8-oz (3.9 mL) increments - allows for Portion Optimization™
- Pump design prevents loss of valve balls
- Custom engraved, color coded knobs are available at no additional charge, for easy identification of contents

PRODUCT AVAILABILITY

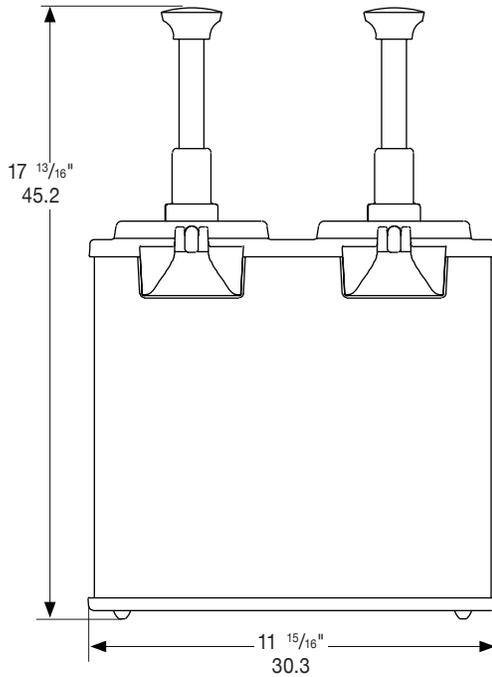

Pouched product in 48-oz (1.4 L) Cryovac® bags with center fitment is currently available in limited markets for Caramel and Fudge. Contact our customer service department before purchasing to ensure product is available.
