

Teacup

magisso®

DO YOU WANT THE PERFECT CUP OF TEA?

We do. The Magisso Tea cup makes enjoying tea nice and simple.

This is how you do it: Just tilt the Magisso Tea cup so that the filter side of the cup is lower. Then place tea leaves into the filter, pour hot water until leaves are covered and let it steep for a while. By tilting the Magisso Tea cup the other way, tea doesn't get any stronger. Now tea is ready to be enjoyed while leaves in the strainer spread their natural fragrance.
